# Certificate

## Sharp

## MX-3060V

### A3 Color MFP - 30/30 ppm

The DataMaster Certificate is issued after analyses of series of jobs in copy, print and scan modes reflecting real-world, commercial use of this machine.

Study of the complete set of results allows the productivity, quality, usability, flexibility, functions and environmental aspects of the equipment to be judged.

Evaluations are based on a market context at time of testing, and results are weighted according to the requirements of different segments of the market.

DataMaster
INDEPENDENT LABORATORY
the printing solutions experts

*Based in France, DataMaster - Printer-Benchmark is the only European specialist document-imaging and professional-printing centre of expertise. DataMaster's independent laboratory has been testing printing equipment since 2007.*

www.printer-benchmark.com

*Our benchmarks are set such that very few machines obtain a grade of 5 stars out of 5.*
