DATAMASTER LAB AWARDS 2018

EASIEST TO USE

Color A3 MFP, 40-49 ppm

The Usability tests look at the interface, the driver and many other features. Our test engineers test machines of every brand, and these rigourous analyses are both scientific and objective.

Cesson-Sévigné, France on January 31st, 2018.

Printer Benchmark
INDEPENDENT LABORATORY
the printing solutions experts

DataMaster Lab is completely independent and objective.

DataMaster Lab is the only European test laboratory specializing in the world of digital printing: printers, photocopiers, MFPs/MFDs, digital presses, and related software solutions. No revenue is derived from testing. All of the **DataMaster Lab** awards are derived from tests carried out by our own test teams.
